

INTRODUCTION OF WPC SERIES

塑木产品简介

产品主立柱外层采用塑木材料，内衬3mm厚的钢管，使产品具有更高牢固性和安全性。不含有毒物质，可回收再利用，百分之百环保。该产品具有良好的机械性能，阻燃性好，吸水性小。抗老化、耐磨，耐腐蚀、防紫外线，耐候性优良，尤其适用于露天日晒雨淋的各类休闲场所。

塑木产品分两种系列：

B系列：中间立柱为塑木立柱，两侧的功能器材为不锈钢材质制作而成。其外形美观，亮丽，档次高，适合于沿海气候。

T系列：中间立柱为塑木立柱，两侧的功能器材为碳钢材质制作而成。可根据客户的要求进行喷涂颜色，为客户提供更多的选择。

Introduction about the WPC

WPC products' posts are made up by the outside wooden plastic materials and inside 3mm steel tubes. This combination makes the products to be with more stability and more security, with more artistic outward appearance and more comfort, and makes you closer to the nature. These products have no poison materials and can be reused after recycling. So, these products are 100% environmentally-friendly.

At the same time, these products are very suitable for any open-air places, they are with good character of flexibility, fire resistance and less water absorption. They are also with good weather resistance of aging resistance, wear resistance, corrosion resistance and UV-protection.

Two choices in this series:

B series: the middle main post is of WPC, the function equipments on both sides are of stainless steel. It's better choice for sea shore area.

T series: the middle main post is of WPC, the function equipments on both sides are of Q235 carbon steel, which can be painted different colors accordingly.
